ZIP code 32114 is a 16.9 square mile area located in northeast Volusia County. It is the home of Daytona Beach residents. According to the Census Reporter, in 2016, the majority of the population (53%) was under 40 years of age and 52 percent were females. Forty-six percent of 32114 foreign born residents (6.5%) were from Latin America.

This brief presents the socio-economic and health status of ZIP code 32114 in comparison to Volusia County and Florida.

- ZIP code 32114 experienced a negative population growth unlike the county and state from 2010 to 2016.
- Slightly more than half (50.6%) of 32114 residents are black/African American in a county where white residents are more than 80 percent of the population.
- Almost a quarter of 32114 residents were married in 2016.
- Sixteen percent of 32114 residents had a college degree as compared to 22 and 28 percent for Volusia County and Florida, respectively.
- The percent of 32114 families below the poverty level was more than twice the percent in Volusia County and Florida.
- Average household income for 32114 families regardless of race/ethnicity was lower than Volusia or Florida households.
- Unemployment was higher in 32114 than at the county and state levels.

2017 Health Data	32114		Volusia 2017	Florida 2017	Healthy People 2020
	2013	2017			
Maternal, Fetal & Infant Health					
Mothers who Received Early Prenatal Care	75.4%	73.1%	77.9%	77.3%	77.9%
Preterm Births	12.6%	11.4%	10.7%	10.2%	9.4%
Low Birth Weight	12.3%	10.8%	9.4%	8.8%	7.8%
Infant Mortality Rate per 1,000 Live Births	2.4	8.8	5.8	6.1	6.0
Chronic Disease Age-Adjusted Death Rates per 100,000 Persons					
Coronary Heart Disease	161.3	199.2	112.4	92.9	103.4
Stroke	59.2	64.5	46.8	39.6	34.8
Chronic Lower Respiratory Disease (CLRD)	89.6	59.6	58.0	40.0	Not Available
Lung Cancer	58.2	54.3	46.6	37.0	45.5
Diabetes	33.3	35.0	26.8	20.7	Not Available
Breast Cancer	23.0	26.2	20.7	19.0	20.7
HIV/AIDS	25.2	25.2	3.3	3.2	3.3
Colorectal Cancer	19.2	24.1	13.9	13.6	14.5
Prostate Cancer	17.1	13.6	17.5	17.3	21.8
Injury and Violence Age-Adjusted Death Rates per 100,000 Persons					
Suicide (All Means)	20.0	27.3	23.4	14.1	10.2
Motor Vehicle Crashes	1.7	23.4	23.3	14.9	12.4
Homicide (All Means)	8.9	20.6	6.3	6.5	5.5

NOTE: Age-adjusting: The frequency with which health events occur is almost always related to age. The age-adjusted rate eliminates the effect of the underlying age distribution of the population, allowing for comparisons between populations regardless of their age structure.

Healthy People 2020 - <https://www.healthypeople.gov/2020/topics-objectives>

Health Status. Healthy People 2020 (HP2020) sets a wide range of objectives and targets for most health issues. These serve as goals for health providers and communities to improve the health of its residents. Although, ZIP code 32114 fell short of the HP2020 targets on the majority of the health indicators, it has improved on a third of the indicators from 2013 to 2017.

In 32114:

- In 2017, 15 of the 16 health indicators were worse for 32114 than Volusia County, Florida, and the HP2020 target.
- Preterm and low birth weight births decreased by 10 and 12 percent respectively from 2013 to 2017 in 32114.
- The rate of early prenatal care was lower than Volusia and Florida and below the HP2020 target.
- The coronary heart disease death rate was almost twice the national target and more than twice Florida's rate.
- The CLRD and lung cancer death rates in 32114 decreased by 34 and seven percent respectively from 2013 to 2017.
- The HIV/AIDS death rate in 32114 was more than seven times the rate of Volusia, Florida, and HP2020 target; however, the rate did not change from 2013 to 2017.
- The 32114 prostate cancer death rate was lower than Volusia, Florida, and the HP2020 target; it decreased by 21 percent from 2013 to 2017.
- The 32114 suicide rate was more than twice as high as the HP2020 target and Florida rates.
- The 32114 homicide rate was more than three times the rates of Volusia and Florida, and the HP2020 target.
