**Holly Hill, Fla.** — The Florida Department of Health in Volusia County (DOH-Volusia) issued a rabies alert in Volusia County in response to confirmed case of rabies in an unvaccinated cat that was captured in Holly Hill near the intersection of San Robar and Riverside Drive on August 12, 2025. DOH-Volusia is monitoring rabies among wild animals in the area. All residents and visitors should be aware that rabies is currently present in the wild animal population.

People and domestic animals should always avoid physical contact with wild animals (e.g., raccoons, bats, foxes, skunks, otters, bobcats, coyotes), which carry a higher risk of human exposure and a need for rabies **post-exposure treatment**. **If you are exposed to rabies, receiving appropriate treatment after exposure will protect you from the risk of rabies.**

**This rabies alert is for 60 days and includes the following boundaries in Volusia County:**

- **Eastern Boundary: Halifax River Waterway, Holly Hill**
- **Northern Boundary: 15<sup>th</sup> St., Holly Hill**
- **Southern Boundary: 5<sup>th</sup> St., Holly Hill**
- **Western Boundary: Center Ave., Holly Hill**

**Take the following precautions to prevent rabies exposure:**

- Immunize your pets and livestock based on your veterinarian's recommended schedule.
- Keep pets under direct supervision and on a leash, and keep livestock secured on your property. If an animal bites your pet or livestock, seek veterinary assistance for the animal immediately and contact Holly Hill Animal Control at 386-248-9483.
- Avoid contact with wild or stray animals. Do not handle, feed, or unintentionally attract them with outdoor pet food, open garbage cans, or other sources of food. If you have been bitten or scratched by a wild or domestic animal, seek medical attention, and report the injury to DOH-Volusia by calling 386-274-0634.
- Never adopt wild animals or bring them into your home; instead, contact a [licensed wildlife rehabilitator](#).
- Call your local animal control agency to remove any stray animals from your neighborhood.
- Prevent wildlife, including [bats](#), from entering living quarters or occupied spaces in homes, schools, and other similar areas where they might come in contact with people and pets.
