Research Excellence Initiative - Public Health Research Projects

Karlette Peck, CHD Administrator of Martin County &
Leah Atwell, Behavioral Risk Factor Surveillance System (BRFSS) Coordinator

The Research Excellence Initiative (REI) is a year-long education program for Department of Health professionals conducting research, epidemiology, and program evaluation. REI promotes research on Department priorities, including Healthiest Weight and obesity, cancer and tobacco-related diseases, health disparities/equity, trauma, and substance abuse. Two REI graduates will present their research projects.

Continuing Education credits will be available for nurses.
